It is my great pleasure to present the 2018 Annual Report of UNIDO ITPO Korea, a compilation of our major activities and events during the past year. I am proud to say that our achievements have significantly increased in both quality and quantity compared to previous years.

In 2018, UNIDO ITPO Korea successfully carried out its flagship activity, the Delegate Programme, thus increasing cooperation efforts between the Korean and Indian paper industries. Through the programme, ITPO Korea strengthened its role in international cooperation and technology transfer by organizing eight industrial tours/business meetings and one international seminar for the paper industries of Korea and India. I believe this programme will enable us to expand our networks to other industries in India as well in the future. ITPO Korea will continue to seek such opportunities to promote investment and technology transfer between Korea and developing countries.

Another substantial achievement is the fellowship program that UNIDO ITPO Korea carried out in partnership with KOICA (Korea International Cooperation Agency), titled ‘Business Innovation and Enhancement of MSMEs in Colombia’. Fifteen public officials and private experts from Colombia participated in the programme to find ways to enhance the capacity and expertise of MSMEs in Colombia. They engaged in a full programme that included lectures by Korean professionals, seminars with Korean entrepreneurs, industrial tours, and one-on-one business meetings. Through this programme, which will continue until 2020, ITPO Korea strives to achieve the mission of the office, and help promote investment and technology transfer between Korea and Colombia.

In addition, UNIDO ITPO Korea arranged seminars in collaboration with important stakeholders including Korean government authorities, potential investors, relevant organizations in developing countries, and UNIDO regional offices. The seminars resulted in 102 business meetings and 256 one-on-one consultation meetings, and engaged 217 entrepreneurs and 40 government officials.

Moreover, UNIDO ITPO Korea promoted productive, environmentally friendly technologies of SMEs through its online database platform, thus enhancing investment and networking opportunities for both domestic and foreign enterprises. A total of 65 technologies from various SMEs in Korea and developing countries have now been incorporated into our database, which I believe will be an informative tool for companies both seeking out and providing technology.

At the end of 2018, UNIDO ITPO Korea launched the Advisory Programme, which will provide business opportunities for the private sector in Korea as well as in three target countries (Ethiopia, Peru, and Cambodia), thereby facilitating investment promotion efforts, technology transfer and networking opportunities for international cooperation.

In conclusion, I would like to emphasize that the achievements briefly outlined in this report were made possible only through the generous support of our partners. I express my deep gratitude to all our donors and partners for their continuous support, and my colleagues in Vienna for their cooperation and trust. Last but not least, I applaud my colleagues in Seoul for their hard work during this fruitful year.

Jungsoo DOO

UNIDO ITPO Korea

Establishment
The Republic of Korea joined UNIDO in 1985 and established UNIDO ITPO Korea in April 1987. Under the agreement between MOFA and UNIDO for the active dissemination of Korea’s economic development experience through technology transfer, all these activities have been the organization’s key promotional strategies to help developing countries to reduce poverty and achieve sustainable economic development.

Mission
UNIDO Investment and Technology Promotion Office in Korea (UNIDO ITPO Korea) strives towards its strong commitment to the facilitation of industrial development in developing countries through the inflows of investment and technology. By utilizing the already-established networks of both public and private investment promotion bodies within UNIDO, we maintain a strong commitment to our mission to promote and facilitate foreign investment and technology transfer from Korean enterprises, particularly regarding small-to-medium sized enterprises (SMEs) to developing countries and its respective enterprises.

Our Services
UNIDO ITPO Korea conducts various services to achieve our mission based on two main pillars; 1) Trade and investment promotion activities, 2) Development cooperation activities. With this in mind, UNIDO ITPO Korea carries out a variety of programmes and projects to promote cooperation and technology transfer from Korea to developing countries.

Location
Room 411, 153 dong, Seoul National University, Gwanak-ro 1, Gwanak-gu, Seoul, Korea
Post code: 08826    Tel: +82-2-794-8191-3    Fax: +82-2-794-8194    E-mail: itpo.seoul@unido.org    Website: www.unidokorea.org

● UNIDO Worldwide

In addition to its Headquarters in Vienna, UNIDO has liaison offices in Brussels, Geneva, and New York. Its field network consists of 47 regional hubs, and regional and country offices covering 156 countries. UNIDO maintains 9 Investment and Technology Promotion Offices (ITPO) worldwide - Bahrain, Beijing, Shanghai, Germany, Italy, Japan, Nigeria, Republic of Korea, and the Russian Federation. UNIDO’s field offices are 48 in total, with 19 in Africa, 7 in the Arab States, 12 in the Asia and Pacific, 3 in Europe and Central Asia, and 7 in Latin America and the Caribbean.
A Glance at UNIDO ITPO Korea’s Achievements

Delegate Programme in 2018:
- 2 programmes, 33 delegates
- 8 industrial tours, 1 lectures/seminars, 2 business meetings

UNIDO-KOICA Fellowship Programme:
- 15 delegates, 11 lectures/seminars, 7 industrial tours, 4 business meetings

Capacity Building:
- 1 COMFAR Training Workshop, 13 participants
  UNIDO ITPO Korea enables Korean entrepreneurs to initiate project appraisal and analysis by providing workshops on its COMFAR III programme.

Trade and Investment Seminars/Events:
- 272 entrepreneurs and 40 government officials from 33 developing countries,
- 256 one on one consultation meetings

Industrial Tours:
- 3 industrial tours, 76 participants, 56 diplomatic corps/government officials from 42 countries

Technology Database:
- 65 technologies
Delegate Programme

Abstract
In order to promote Korea’s technologies and investment opportunities, UNIDO ITPO Korea invites high-level officials of public and private Investment Promotion Agencies (IPAs) as well as industry experts from developing countries to Korea through its Delegate Programme. The Programme consists of bilateral business meetings with potential Korean investors, country presentations, and industrial tours. Through this, it serves as a gateway to launch substantive cooperation between Korean private sectors and partner countries.

Results
33 delegates, 8 industrial tours, 1 lectures/seminars, 2 business meetings

1 India Central Pulp & Paper Research Institute Delegate Programme

On 15-16 March 2018-UNIDO ITPO Korea organized a delegate programme to increase cooperation efforts between the Korean and Indian paper industry. The delegation, consisting of high-level scientists from Central Pulp & Paper Research Institute (CPPRI) along with the UNIDO project manager visited Korea as a part of the ‘Indian Paper Industry Revitalization Project’ carried out by UNIDO International Centre in New Delhi.

On their first day in Korea, a meeting between the delegation and Korea Technical Association of the Pulp and Paper Industry (KTAPPI) was held at the ITPO Korea office. The participants of the meeting discussed various topics regarding the current status of Korea-India’s bilateral paper industry and possible opportunities for transferring paper related technology from Korea to India. After the meeting, the participants visited KTAPPI’s laboratory to learn about their research procedures.

On the second day, the delegation visited the Changgang Institute of Paper Science & Technology located at Kangwon National University in Chuncheon city. Subsequent to this, substantive and in-depth discussion on de-inking and recycling
fields proceeded. Moreover, future cooperation schemes between the two research institutes were materialized. Through such efforts, ITPO Korea strengthened its role in international cooperation by organizing the delegation programme for the paper industry between Korea and India and promoting technology transfer.

### India Pulp & Paper Technical Association Delegate Programme

On 20-26 October 2018-UNIDO ITPO Korea invited 30 delegates of board members and entrepreneurs from the India Pulp & Paper Technical Association (IPPTA) to introduce the papermaking technologies of Korea. This Indian Paper Industry Delegation Programme included visiting eight Korean paper mills and participating in one conference.

IPPTA is an association founded by experts from the Indian paper industry in 1964. ITC, JK Paper, and Century, which have been ranked in the top 10 paper production industries of India, are members of the association. Through examining paper mill factories in Korea and engaging in meetings with Korean companies, the delegates were able to identify future business cooperation opportunities between the Korean and Indian paper industry.

**Mr. M.K. Goyal**, President of IPPTA, stated, “The Indian delegation could explore the possibility of collaborating with our allied Korean paper industry in order to create value without adversely impacting the ecology and environment.” He added, “I would like to thank ITPO Korea for organizing this maiden trip of IPPTA members to Korea.”

**Mr. T. R. Subramaniam**, Head of Quality Pillar of ITC Limited (unit: Koval), said, “It was a memorable experience for the Indian paper industry, currently undergoing a facelift, to see the latest technology of Korea. We are sure the industry in India in the years to come will be on par with developed countries, and the knowledge that the industry possesses will make the job very easy.”

ITPO Korea will continue to put efforts into promoting job creation, inclusive and sustainable industrial development, and technical cooperation between Korea and developing countries through actively organizing various activities such as industrial tours.
UNIDO-KOICA Fellowship Programme

Abstract
In partnership with KOICA, UNIDO ITPO Korea carried out the Fellowship Programme which sought to provide Colombian delegates with solutions on how MSMEs in Santander, Colombia can achieve competitiveness in Latin America and in the world market. This was initiated by providing information about the successful business innovations of Korean MSMEs and the experiences of Korea becoming the seventh largest external exporting country in the world market.

Results
15 delegates, 11 lectures & seminars, 7 industrial tours, 24 business meetings

● UNIDO-KOICA Fellowship Programme : Business Innovation and Enhancement of MSMEs in Colombia
On 30 September to 13 October 2018 In partnership with KOICA, UNIDO ITPO Korea carried out the fellowship programme, ‘Business Innovation and Enhancement of MSMEs in Colombia’. 15 public officials and private experts from Colombia participated in the programme to enhance the capacity and expertise of MSMEs in Colombia. The participating institutions included Santander State Government, Bucaramanga City Hall, Chamber of Commerce of Bucaramanga, Free Trade Zone Santander, The National Association of Businessmen of Colombia, etc.

The fellowship programme was composed of government department meetings, seminars, 1:1 business meetings, industrial tours, and lectures. Meetings with KIAT (Korea Institute for Advancement of Technology), SBC (Small & Medium Business Cooperation), Chamber of Commerce of Gumi city, and Gumi City Hall resulted in the design of cooperation strategies between each institution and the participants. Industrial tours of the facilities in the field of energy, IT, and manufacturing helped the participants acquire knowledge on Korean technologies. ITPO Korea has also organized the Colombia Trade & Investment Seminar in cooperation with KCLAC (Korean Council on Latin America & the Caribbean) in order to facilitate business cooperation between Korea and Colombia.

Based on the lessons learned through these various activities, the participants established an Action Plan at the end of the programme to facilitate the innovation of MSMEs in Colombia when they go back to Colombia. In order to better formulate the Action Plan, Korean experts in the field of policy development participated to provide advice and assistance.
Mr. Juan Rojas, the head participant of the fellowship programme, stated that he “could receive great help to develop and establish policies for the development of Colombia by the fellowship programme,” followed by saying, “we sincerely appreciate ITPO Korea’s excellent works to prepare and fulfill the fellowship programme.”

Mr. Juan Puyana, Executive Director of the Regional Commission of Competitiveness of Santander, commented that he was “impressed by the development that Korea could achieve from such a short period of time, and will endeavor to achieve what Korea could in Colombia.”

Starting from 2018, ITPO Korea has arranged a three-year plan for the fellowship programme to be completed in 2020.

Through this, ITPO Korea will strive to achieve the mission of the office, and help promote investment and technology transfer between Korea and Colombia.
Trade & Investment Promotion Seminars/Events

Seminars/Events
UNIDO ITPO Korea organizes various seminars and events in collaboration with relevant stakeholders such as government authorities, potential investors, relevant organizations in developing countries, as well as UNIDO regional offices. The seminars are designed to share substantial information on partner countries’ investment environment, market demand, and case studies to provide opportunities to establish business networks.

Results
272 entrepreneurs, 40 government officials from 33 developing countries, 256 one on one consultation meetings

1. UNIDO-KBIZ Presentation and Consultation Meeting on SMEs’ Overseas Investment and Exports

80 entrepreneurs, 200 participants, 18 government officials from 14 developing countries, 210 one on one consultation meetings in 47 booths
On 16 May 2018, UNIDO ITPO Korea held the ‘2018 UNIDO-KBIZ Presentation and Consultation Meeting on Korean SMEs’ Investment and Exports to LDC’ to attract FDI in developing countries as well as support for Korean SMEs by providing advice and sharing information of the countries’ business and policy environment.

The event, which was jointly organized by ITPO Korea and the Korea Federation of SMEs, was attended by over 200 participants from 35 countries including 80 business entities, 30 KBIZ representatives from 21 countries, 7 trade experts from financial institutions, and 18 government officials from 14 developing countries.

In the welcoming remarks of the event, Head of ITPO Korea Mr. Jungsoo Doo mentioned, “We need to pay attention to the emerging markets of developing countries in the rapidly changing international environment”, and “active investment and technology transfer of Korean companies to developing countries will lead to industrial development in developing countries, along with the prosperity of the companies.” Mr. Doo also highlighted, “For those purposes, ITPO Korea constantly supports the Inclusive and Sustainable Industrial Development of developing countries.”

The event consisted of three sessions as follows,

1. Lecture on “Strategies for Overseas Expansion” by Mr. Gwang-Heon Lee of Korea International Trade Association Academy.
2. Presentation on ‘Business Expansion into Developing Countries & Trade’ by five government officials from Indonesia, Sri Lanka, Uzbekistan, Ethiopia, and Zimbabwe.
3. One on one consultation meetings for SMEs.
On 27 November 2018, UNIDO ITPO Korea initiated and organized the 2018 Integration Forum of Export Clubs in the Province of Daejeon-Sejong-Chungnam in cooperation with Ministry of SMEs and Startups (Daejeon-Chungnam Regional SMEs and Startups office), KOTRA Support Center (Daejeon-Chungnam) and Small & Medium Business Corporation (Daejeon-Chungnam) in order to promote trade and investment opportunities between Korean SMEs and developing countries.

ITPO Korea invited Ms. Khin Myo Thaw, Economic Counsellor of the Embassy of Myanmar, and Mr. Dwinanto Rumpoko, Economic Counsellor of the Embassy of Indonesia. Their presentations about the status of local markets and the strategies for overseas expansion brought positive responses from the participants. More than 90 entrepreneurs who wish to extend their business to Indonesia and Myanmar attended and had networking opportunities with the two embassies.

ITPO Korea acquired 39 registration forms from participating companies that wish to promote and transfer their technology through The Technology Database of ITPO Korea.

UNIDO ITPO Korea will continuously provide such opportunities for industrial cooperation between developing countries and SMEs, focusing on the need for overseas expansion of Korean entrepreneurs with advanced technologies.
On 23–27 April 2018, UNIDO ITPO Korea participated in the 2018 Hannover Messe, the world’s leading industrial trade fair, held in Hannover, Germany, in order to exhibit its promotional stand for 5 consecutive days.

6,500 companies from 77 countries and 200,000 visitors attended the 2018 Hannover Messe. Since the signing of the MOU in 2015, UNIDO has participated in Hannover Messe every year in order to provide organizations and enterprises from member states with the opportunity to promote on the international stage and expand their networks.

ITPO Korea managed the Promotion Hall in the Global Business Market section in collaboration with ITPOs from Germany and Nigeria, along with the UNIDO Network of Subcontracting and Partnership Exchange (SPX) centers from Cameroon, Colombia, Iran, and Mozambique. ITPO Korea also actively promoted its role to various stakeholders from all over the world and engaged in establishing partnerships with them.

ITPO Korea successfully completed the discussion and consultation with over 50 international buyers, suppliers, governments, and stakeholders in 2018 Hannover Messe. Concerning the booth, ITPO Korea registered 47 visits and a diverse range of visitors from many different countries visited the booth, including Nigeria (2), Germany (2), Republic of Korea (13), Russia (1), Luxemburg (1), Malaysia (3), Mexico (4), Mozambique (2), UK (2), India (2), China (2), Czech Republic (1), Cameroon (4), Canada (2), Colombia (1), Turkey (4), France (1).

The majority of foreign visitors sought opportunities to build partnerships with Korean companies and attract investment from Korean investors. ITPO Korea will continue to participate in Hannover Messe to promote and foster international technology exchange as well as foreign direct investment in developing countries and economies in transition.

The breakdown of visitors by the type of business has been as follows:

- Manufacturing (13)
- Governmental Authority (7)
- Investment promotion (6)
- University (4)
- Electricity (4)
- Energy (2)
- Foreign trade (2)
- Total Quality Assurance provider (2)
- Corporate Finance (1)
- Strategic Advisory (1)
- Electro-Mechanical Authority (1)
On 28-30 November 2018 as a part of its efforts to promote UNIDO’s contribution to SDGs, UNIDO ITPO Korea participated as an exhibitor in the ‘Exhibition-Conference on Smart Technology for Sustainable Development & Procurement 2018 (STS&P 2018)’ held on Nov. 28-30 in Ilsan Kintex, Korea.

STS&P 2018 was hosted by UNOPS in partnership with STS&P 2018 Organizing Committee to promote and contribute to SDGs by providing a platform to bring together private companies, international organizations, profit and non-profit organizations, ODA-related authorities etc.

As an exhibitor, ITPO Korea secured a booth in the exhibition to promote UNIDO ITPO Korea’s mandate and activities along with possible cooperation opportunities with the participants. Moreover, ITPO Korea invited 20 government officials from 17 developing countries who were already attending KOICA’s Scholarship Program to arrange consultation meetings with Korean companies interested in overseas expansion.

A total of 101 meetings were held and 26 companies signed ITPO Korea’s technology database application during the exhibition, in which a total of $359,865 was discussed during the consultation session between Korean companies and the developing countries. Also, the government officials who participated in the consultation sessions made their promises to cooperate with our office’s future activities.
Capacity Building

2018 UNIDO COMFAR III Training Workshop

COMFAR (Computer Model for Feasibility Analysis and Reporting) is a computer software programme developed by UNIDO to facilitate financial and economic appraisal of investment projects and to reduce investment risks.

UNIDO ITPO Korea organized COMFAR Workshop for senior entrepreneurs of Korean SMEs planning to extend their businesses into overseas markets, especially in developing countries. A total of 13 participants from public organizations and private companies participated in this workshop and learned the COMFAR Expert software programme.

The workshop was composed of an introduction to feasibility studies with the application of UNIDO COMFAR III Expert, COMFAR Financial analysis, economic analysis, and project financial appraisal. Such activities were implemented by participants practicing a case study.

According to the survey result, 78% participants said that they were satisfied with the workshop and 89% participants expressed their willingness to recommend the COMFAR III software to their colleagues.
Industrial Tours

To promote industrial cooperation and technology transfer between Korea and developing countries, UNIDO ITPO Korea periodically arranges industrial tours for diplomats from various countries on industrial facilities that possess advanced technologies.

Concerning this, ITPO Korea focuses on thematic areas as clean technology, industry cluster upgrading, and other environment-related industries.

Results
76 participants, 56 diplomatic corps and government officials from 42 countries

1 Industrial Tour for Diplomatic Corps on Waste Management and Development

On 29 March, 2018-UNIDO ITPO Korea organized an industrial tour for diplomatic corps to the SUDOKWON Landfill Site Management Corp. (SLC) which has the world’s largest waste to energy power plant and waste treatment facility.

In order to facilitate cooperation between Korea and other countries in promoting green industrialization, UNIDO ITPO Korea organized the industrial tour and invited Ambassadors and his/her deputies to experience the advanced technologies to manage solid waste and the know-how in operating the relevant eco-friendly equipment and facilities.

A total of 22 participants, consisted of 18 diplomatic corps from 13 countries including Ambassadors of Zambia, Laos and Brunei participated in the tour.
On 17 April 2018-UNIDO ITPO Korea organized an industrial tour for diplomatic corps to Korea District Heating Corp. (KDHC) in order to introduce Korea’s facilities on heating, integrated waste management, and treatment technology.

A total of 31 participants, consisted of 19 diplomats from 15 countries including Ambassadors of Ethiopia, Tanzania, Peru, and Zambia, and Deputy Director-General of Climate Change, Energy and Environmental Affairs Bureau of MOFA, participated in the tour.

H.E. Ms. Matilda S. Masuka, Ambassador of Tanzania remarked “I hope that more Korean companies including KDHC will actively expand their business in Tanzania, and in the African market,” expressing her gratitude to ITPO Korea for organizing the tour. In addition, H. E. Mr. Wybur C. Simuusa, Ambassador of Zambia stated, “Waste management facilities and technologies are one of the most essential necessities for the African region.”

Mr. Jungsoo Doo, Head of ITPO Korea, highlighted “ITPO Korea will continue to promote and accelerate Inclusive and Sustainable Industrial Development (ISID) by taking part in various activities for developing countries and economies in transition.”
On 28 June 2018, UNIDO ITPO Korea organized an industrial tour for government officials to KIA Motors and Samsung Innovation Museum (SIM), sponsored by the Korea University Graduate School of International Studies, with the hopes of promoting Korea’s leading manufacturing industry and introduce the history of Korea’s industrial development.

19 government officials from 14 developing countries including Indonesia, Sri Lanka, Uzbekistan, Ghana, Ethiopia, and Ecuador, participated in the tour. The officials were in Korea for their KOICA-Korea University Master’s Degree Programme in Finance and Tax Policy.

The tour began by visiting the KIA Motors factory located in Sohari, Gwangmyeong. The Sohari plant is the birthplace of Korea’s automobile industry, established in 1973. The plant had formerly produced the Brisa, the Bongo, and the Rio, and now produces the K9, the Carnival, the Stinger, the Stonic, and the Pride.

The participants had a chance to witness the entire production line of the automobile industry including the PR center, press, assembly, as well as the Gamma engine unit and explored all of the mechanical equipment and automated plant facilities of KIA Motors factory.
Subsequently, the tour headed to SIM which showed the ‘history and the future of the electronic industry and its innovation’ and ‘achievements in semiconductor, display, and mobile sectors by Samsung Electronics’. The SIM, established by Samsung Electronics, allows visitors to view the history of the electronics industry and Samsung Electronics’ past achievements, including its semi-conductor and display-related technologies.

The SIM provided the participants with the following themes; “Seeds of Innovation” introducing the initial background of KIA, “Core of Innovation” highlighting the importance of corporate innovation, and “SIM Lab” educating the mechanism needed in producing electronic technologies. Lastly, SIM presented a future-oriented video showing Samsung Electronics’ strong commitment to uphold the meaning and value of innovation.

Ms. Ganbat, Chief Accountant of Mongolia Human Resource Center, expressed her “deep impression in the techniques of Korea’s automobile manufacturing industry and diligence of Korean people,” and remarked her appreciation to ITPO Korea for organizing the tour.

ITPO Korea will continue to promote inclusive and sustainable industrial development and technical cooperation between Korea and developing countries by organizing various activities such as but not limited to industrial tours.
Technology Database

UNIDO ITPO Korea promotes productive, environmentally friendly technologies of various companies to accelerate Inclusive and Sustainable Industrial Development (ISID) and thus achieve the Sustainable Development Goals (SDGs).

In order to do so, ITPO Korea provides an online platform service to enhance investment and networking opportunities for the private sector, by promoting the most recent information on selected technologies of and for both domestic and foreign enterprises.

The collected information is uploaded on ITPO Korea’s website as the ‘Technology Database’, and is published as well to be freely accessed by those who are interested in seeking partners and foreign direct investment (FDI). Companies who wish to participate in ITPO Korea’s projects will be selected through ITPO Korea’s internal procedure.

Criteria for Registration

Technologies will be reviewed and screened by UNIDO ITPO Korea’s experts based on the following criteria;
1) Acceptance in developing countries
2) Advanced technology
3) Sustainable Competitive Advantage (SCA)
4) Compatibility with UNIDO’s industrial development project

How to Register

Any companies who wish to register their technology, service, and products on UNIDO ITPO Korea’s website, please contact our office via itpo.seoul@unido.org.

Network

UNIDO ITPO Korea facilitates active interaction through its networking opportunities by expanding and revitalizing partnerships in both the national and international levels as a means to promote sustainable development.

● UNIDO ITPO Korea’s Networking of 2018

1 Sogang Model United Nations

On 19 January 2018, UNIDO ITPO Korea’s Head Jungsoo Doo attended the opening ceremony for Sogang Model United Nations to deliver his congratulatory remarks.

With the motto of ‘Public Meets Private’, this was the second Model United Nations that Sogang University hosted and was held from the 19th to 21st of January. Within this event, ‘UNIDO Session’ was organized as a part of its programme.

At the beginning of the UNIDO Session, Mr. Doo addressed the mission of UNIDO as a special agency of the UN and introduced ITPO Korea’s projects which aim to promote industrial cooperation between Korean enterprises and developing countries. Also, he emphasized that such industrial cooperation not only benefits developing countries but Korea as well.

In the end, Mr. Doo epitomized the close relationship between SDGs for 2030 and UNIDO’s programme by adding, “Goal 9 of SDGs emphasizes the need to build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation, thereby reflecting that inclusive and sustainable development is essential to eradicate poverty as well as improve income, health, and education.”
From 26 to 27 January 2018, UNIDO ITPO Korea’s Head Jungsoo Doo attended the Board of Directors Retreat in Vienna, Austria. In this retreat, managing directors and directors from each ITPO office participated to discuss the agenda of collaborating in future projects.

In 2017, UNIDO found that its net voluntary contribution increased at a stable rate during the past five years. Also, the delivery of technical cooperation activities has been at its all-time high, which is over 200 million USD surpassing the previous record. It is expected that UNIDO would develop more than it has in 2017.

As 2018 marks the first year of implementing the MTPF 2018-2021, Director General Li-Yong emphasized the 2018 management objective of “Integration and scale-up” in his remarks during the Expanded Board of Directors. Through this, UNIDO aims to maximize impact, harness synergies, move towards larger-scale projects, increase knowledge and technology transfer, and facilitate networking and industrial cooperation.

Aside from integrating and scaling up globally, UNIDO also prioritizes “Improvements toward effective implementation and innovation” and “Strengthening partnership” as its management objectives.

On 4 to 8 June, 2018-UNIDO ITPO Korea attended the ITPO Heads’ Meeting, held in Tokyo, Japan, in which the ITPO Coordination Team and ITPO Heads from Korea, Germany, Russia, Italy, Bahrain, Japan, and China were present. In this period, all of the participants discussed the opportunities and challenges of each ITPO and formulated comprehensive strategies to strengthen the ITPO network.

During the first two days, each ITPO gave presentations regarding the ongoing situations and projects under consideration. Subsequently, the participants visited the NEC Innovation World in Tokyo to learn about biometrics technology and its application. Shortly after, the participants visited the Kyocera Corp. in Kyoto to discuss agendas of new technologies and future collaboration.

ITPO Korea made a commitment to work on the joint project plan with other ITPOs and benchmark major activities from the meeting. Building upon this, the ITPO Network will continue to strengthen cooperation in the near future, striving to achieve the 2030 Agenda and SDGs.
On 25-28 June 2018, UNIDO ITPO Korea’s Head Jungsoo Doo attended the 6th Korea-China CEO Roundtable held in Jeju Island, Korea. The roundtable was co-hosted by the Federation of Korea Industries (FKI) and the China International Council for Promotion of Multinational Corporations (CICPMC).

A total of 60 leading figures in the Korea and China economic circles participated in the roundtable. During this event, they discussed making changes in the 25-year Korea-China economic cooperation frame of processing trade, by utilizing the advantages of the 4th Industrial Revolution. Also, they discussed future agendas such as joint investment opportunities in North Korea, in the context of peace on the Korean Peninsula. During the ‘One-Belt-One-Road Project Expanding to Korean Peninsula Session’, Mr. Doo mentioned that various projects for Inclusive and Sustainable Cities are in progress through cooperation between UNIDO and the Chinese Government, and emphasized that "UNIDO is interested in reinforcing relations among South Korea, North Korea, and China through the One-Belt-One-Road Project based on the expectations of North Korea’s development."

On 2 November 2018, UNIDO ITPO Korea’s Head Jungsoo Doo attended the 7th Korea-China CEO Roundtable held in Tianjin, China. The roundtable was co-hosted by the Federation of Korea Industries (FKI) and the China International Council for Promotion of Multinational Corporations (CICPMC).

In the 4th session, Mr. Jungsoo Doo presented how UNIDO and China have made cooperation efforts regarding the Belt and Road Initiative in order to achieve the SDGs, in particular to Goal #9 (Innovation, Infrastructure, and Industry). Furthermore, he presented ITPO Korea’s major activities and achievements in promoting industrial cooperation between Korea and its partner countries. In the presentation, Mr. Doo pointed out the importance of cooperation between UNIDO and China to achieve Inclusive and Sustainable Industrial Development.
