

Agri-tourism to Bulbula Agro Industry

The Agri-tour workshop aims to showcase the Ethiopian Integrated Agro Industrial Parks for local and foreign investors

Date and time

November 20 - 7pm - November 21 - 10pm EAT

Location

Bulbulla

Agenda:

A full guide and orientation program for investors

About the event

This project can present a unique opportunity to combine aspects of the tourism and agriculture industries to provide a number of financial, educational, and economical benefits to tourist Investors, producers, and communities. The Agritourism project gives an opportunity to foreign and local investors to make decisions and to invest in this Agro park project. It enhances the tourism industry by increasing the volume of visitors to an area and the length of their stay.

Agritourism exclusively covered the largest Agro Industry Parks such as Bulbula, Yirgalem and Bure Agro Industry Parks. The Agritourism program is a platform to Meet officials, to visit the Agro Industry Parks, to share experience from investors who started operations at the Agro Industry parks. A large workforce, availability of different

infrastructures like road, electricity, water access, makes it the ideal investment destination and ready to serve Investors.

Bulbula Integrated Agro-Industrial Park (Bulbula IAIP) is situated in the Oromia Region, strategically located between Lake Langano and Lake Abiyata in the heart of the Great Rift Valley of Ethiopia. It is administered under the Oromia Industrial Parks Development Corporation.

Bulbula IAIP includes a bank, a waste treatment plant, a health clinic, a police station, training centres and managerial facilities. Bulbula IAIP is situated near to train transport, expressway (Mojo to Hawassa), capital city Addis Ababa airport, and Mojo Dry Port near to main road leading to Djibouti, many luxurious hotels and lodges at Adama, Bishoftu, Batu and Shashemene etc.

Bulbula IAIP plays an important role in the country's economy, reducing poverty, creating a better environment for investors in agro-food processing and allied sectors, creating rural employment, off farm broad based income opportunities and improving quality of life in rural areas.
